HISTORY

Since 1952, Abdullah and Abdul Wahed Al-Kooheji, who are brothers, established a name in the world of elegance and high-end jewellery in the Kingdom of Bahrain and Saudi Arabia. These regions have become symbols of originality and authenticity with its unique designs, high-quality jewellery and unique pure diamonds.

Kooheji jewellery has partnered with some of the most prestigious international jewellery designers who provide elegant designs of the finest and purest pieces of diamonds and precious stones.

Our jewellery is distinguished by its unique quality, which has been maintained for decades. We establish trust with our clients by providing them with positive experiences and elegant and sophisticated jewellery that are crafted with utmost professionalism and precision.

KOOHEJI JEWELLERY COLLECTION

KOOHEJI WEDDING SETS

The pure diamond and creative designs in the world are reflected throughout our luxurious and rare wedding sets. This collection includes a range of classic, modern and limited editions that match your special occasions and consist of the finest and classiest diamonds and precious stones.

KOOHEJI WEDDING SETS

KOOHEJI SOLITAIRE

Solitaire is crafted by the best craftsmen and tells the story of passion for fine jewellery. The designs embody a long-lasting relationship between a couple and the importance of the real moments that need sharing in life. Solitaire is created using back diamond and therefore reflects the need for strength and support for stability and a better life.

While preserving our special character by combining wonderful designs, lovely art and precise manufacturing and through our partnership with Arzano, the owners of Rare Antiques, we have come up with more distinctive and modern solitaire pieces, to convey the splendor of our art to all parts of the world.

Love is reflected in every piece of Kooheji Solitaire in an innovative way.

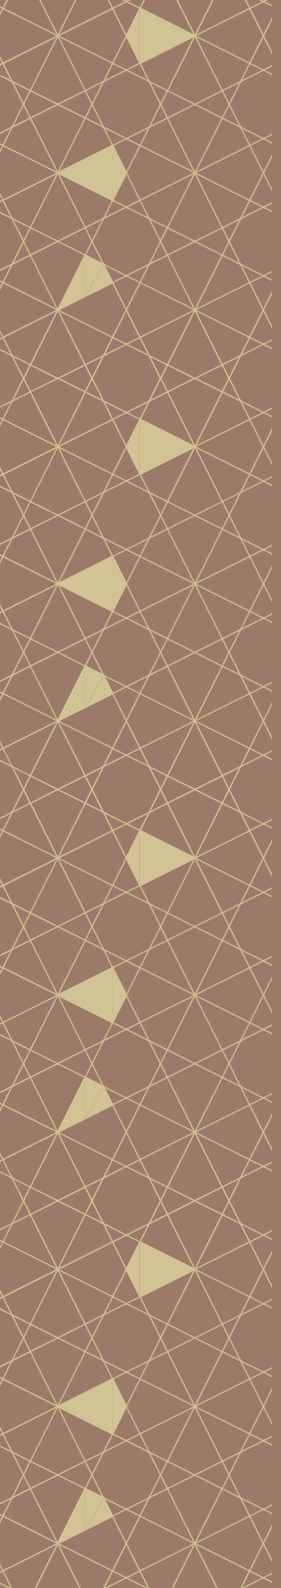

The pieces display an artistic sense and high-quality skills. The main center diamond showcases a unique and distinctive look, and on the other side, there is another diamond that gives the Kohji Solitaire a unique characteristic and look. The two diamonds facing each other represent a long-lasting and stable relationship and a beautiful life filled with stories of love and happiness.

Our jewelry is innovative in a way that gives a touch of elegance to the wearer, and reflects a modern artistic sense.
